

INTEREST RATES (FOR YEARS 2002 – 2023) ON CLAIMS SETTLED IN ACCORDANCE WITH THE NORDIC MARINE INSURANCE PLAN (NMIP) OF 2013 (APART FROM VERSION 2023 OF THE NMIP OF 2013) AND PREVIOUSLY THE NORWEGIAN MARINE INSURANCE PLAN OF 1996 (THE PLAN).

According to Clause 5-4 of the Plan, the assured may claim interest as from **one month** after the date on which notice of the casualty was sent to the insurer. If the insurer has to refund the assured's disbursements, interest accrues from the date of the disbursement. If the insurer is to indemnify the assured for loss of time, interest does not accrue until one month after expiry of the period for which the insurer is liable.

The rate of interest is six month CIBOR, NIBOR or STIBOR + 2 % for insurance contracts in which the sum insured is stated in Danish Kroner, Norwegian Kroner or Swedish Kronor respectively, and otherwise six month LIBOR + 2 %. Interest is determined as at January 1 of the year the insurance contract comes into effect at the average rate for the last two months of the preceding year. As of 1 January 2019, the interest shall in any event be a minimum 2 percentage points for insurance contracts based on Version 2019 of the Plan. Please note that this Clause was amended in the 2023 Version of the Plan, due to termination of LIBOR. As of 2023, the interest rate shall be based on the United States Prime Rate. For further information, please see Clause 5-4 of the NMIP of 2013, Version 2023.

Every January, Cefor calculates the rates of interest for the currencies according to which most claims are settled. The rates of interest were as follows:
